Anonymous Feedback on Website Wireframes and Site Map

Positive Feedback:

I would say that the websites structure is clear, logical and intuitive. Filter Page is very helpful and makes items search easier.

The layout looks simple and clean, avoiding unnecessary complexity.

Critique (Improvements):

The menu structure like categories, links should be more visible all pages.

"Buy" and "Pay" buttons should be more visible too for easier purchasing.

The account section could be more detailed.

Overall People Opinions:

Looks very good, but some navigation features and clarity could be improved.
